

**Amos Bentzur is the founder and senior Partner at Amos Bentzur & Co.** which is a mid-size multidisciplinary commercial law firm with a practice niche related to healthcare systems and industry (public and privately owned), pharmaceutical products (manufacturing, importing, release to - market, distribution, deviations, recalls, etc.) and supply chains.

Mr. Bentzur is considered a worldwide expert on GMP/GDP regulation in Israel and outside of Israel, serving a variety of prestigious clients ranging from individual entrepreneurs to large HMOs and local and international public companies.

Since its inception in 1999, Mr. Bentzur vision was that the firm will combine legal analysis with practical business understanding, enabling it to drive its clients' success while maintaining the highest level of personal service.

In particular, Mr. Bentzur has a unique and broad experience in all regulatory aspects and crisis management concerning the pharmaceutical industry and healthcare systems, Specifically, specializes in implementing and assuring compliance of healthcare organizations and pharmaceutical companies with the requirements of the Israeli and international standards concerning manufacturing, importation and distribution of medicinal products (such as the European cGMP and cGDP guidelines), including different aspects of medical grade cannabis.

Mr. Bentzur is regularly invited to participate in meetings and discussions held in the Ministry of Health and the applicable Parliamentary ("Knesset") committees and actively participate and influence the legislation process and regulations governing the healthcare systems and the pharmaceutical industry.
